PANORAMA

WALLPAPERS

VOLUME · I

INTRODUCTION

Interior design is constantly evolving. The ideas, styles and proposals grow every day. Panorama is a wallpaper concept. It can be produced in different materials and sizes that can change any interior. Our catalog offers a wide range of elegant and colorful murals that cover your walls with artistic designs and capture the attention of the viewer.
Transform and enrich your environment with our designs, Panorama has a lot to offer.

PANORAMA

CUSTOM SIZE MURALS

If you want to order a custom size mural,

FIRST measure your wall and take note of the width and height in centimeters (cm). If your want to cover the entire wall with the mural, we recommend that you add an extra 5cm. to your width and height for trimming when you install your mural.

THEN, inform your seller about the reference you like, the substrate quality and the mesure.

FINALLY install it. Our murals are divided in numbered panels in one roll, which butt up edge to edge. It's really easy to install them from left to right following the order numbers.

OUR SUBSTRATE QUALITIES

You can choose between several substrate qualities depending on the final result you want to get.
All of them are NON WOVEN backed for easier installation.

- Embossed Coated Non Woven paper:
  It's our standard. Perfect finishing, and a fine textured embossing that gives the paper a nice touch and avoids gloss.

- Fiber Textured Matt Non Woven paper:
  Hard fiber textured paper. Higher quality for your wallcovering. Incredible natural wallcovering effect.

- Vinyl Non Woven backed:
  Vinyl wallcovering has a textured, water-resistant surface, and is an excellent choice for common zones, kitchens, offices, hospitals and hallways with the non-woven backing material that provides all the advantages of ease of use... Easy installation paste the wall and dry strippable.

- Metallic Nacarine Non Woven paper:
  Non woven paper with a light shinny effect that can give to your mural an elegant pearl look-like effect.

Good light fastness
Buena resistencia a la luz

Dry strippable
Arrancable en seco
